Work Song chords by Hozier

Difficulty: beginner
Tuning: E A D G B E
Key: C

CHORDS

C   Csus4   Dm   Am

G   F
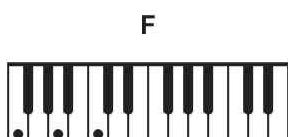

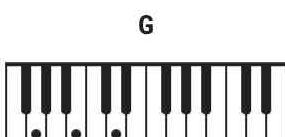

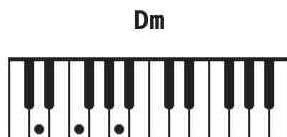

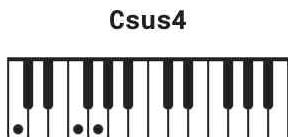

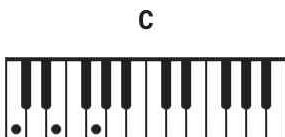

[Intro]

```
| C     Csus4 | C     Csus4 |
| C     Csus4 | C           |

| C     Dm | C     Dm |
| C     Dm | C        |
```

[Verse 1]

```
C                              Csus4
   Boys workin' on empty
     C
Csus4
Is that the kinda way to face the burning heat?
C                              Csus4
   I just think about my baby
     C
I'm so full of love I could barely eat
```

```
C                                           Csus4
   There's nothing sweeter than my baby
     C                                     Csus4
I'd never want once from the cherry tree
C                               Csus4
   'Cause my baby's sweet as can be
     C
She give me toothaches just from kissin' me

[Chorus]

Am          G
   When, my, time comes around
F                                       G
   Lay me gently in the cold dark earth
Am              G
   No grave can hold my body down
F
   I'll crawl home to her

[Verse 2]

C                               Csus4
   Boys, when my baby found me
C                                 Csus4
I was three days on a drunken sin
C                                 Csus4
   I woke with her walls around me
C
```

```
Nothin' in her room but an empty crib
C                                   Csus4
   And I was burnin' up a fever
   C                                  Csus4
I didn't care much how long I lived
C                                     Csus4
   But I swear I thought I dreamed her
      C
She never asked me once about the wrong I did

[Chorus]

Am            G
   When, my, time comes around
F                                       G
   Lay me gently in the cold dark earth
Am              G
   No grave can hold my body down
F
   I'll crawl home to her

Am              G
   When, my, time comes around
F                                       G
   Lay me gently in the cold dark earth
Am              G
   No grave can hold my body down
F
   I'll crawl home to her
```

[Verse 3]

```
C                                    Csus4
   My babe would never fret none
 C                                       Csus4
About what my hands and my body done
C                               Csus4
   If the Lord don't forgive me
      C
I'd still have my baby and my babe would have me
C                               Csus4
   When I was kissing on my baby
      C                              Csus4
And she put her love down soft and sweet
C                               Csus4
   In the low lamp light, I was free
C
Heaven and hell were words to me
```

[Chorus]

```
Am              G
   When, my, time comes around
F                                   G
   Lay me gently in the cold dark earth
Am              G
   No grave can hold my body down
F
   I'll crawl home to her
```

```
Am               G
   When, my, time comes around
F                                        G
   Lay me gently in the cold dark earth
Am              G
   No grave can hold my body down
F
   I'll crawl home to her
```

[Outro]

```
| C     Csus4 | C     Csus4 |
| C     Csus4 | C     Csus4 | C
```
